**Stephen Eades, Founder**

iCan Interactive, Woodbridge  
190 Unit 14 Marycroft Ave  
Woodbridge, ON Canada

Dear Mr Eades,

I am writing to apply for a Developer co-op position at iCan Interactive as I believe I could be a good fit on your team. I'm inspired by the innovative approach iCan Interactive uses to leverage intelligent data systems and modern web technology to create a smart wearable device to aid children on the autism spectrum in their development. I believe my drive to produce high-quality development work and my knowledge of how agricultural businesses function would help me become a valuable addition to your current team.

This position is one that I am well suited for taking into account my practical training and skills that I have developed and am developing in my program, all of which are listed in my enclosed resume. Some of my biggest strengths include:

- My knowledge of JavaScript both on the client and server side.
- A love of learning from others and from any opportunities that I am given.
- Enthusiasm for collaborating with others.
- Flexibility; I can work with a wide range of programming languages and also able to work well with SQL and NoSQL databases.

I am very excited about this opportunity and would much appreciate discussing this further in person. Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,

**Robbert Van der Grift**
